Health information

Any person who comes to Girona, whether to work or study, must have health insurance. In the event you need any specific mobility support or help to function from day to day, Universitat de Girona has a Support Programme for university community members with disabilities.

If you come from a country outside the EU, Norway, Iceland, Liechtenstein or Switzerland, you should find out about any existing medical agreement between the public health system in your

country and the one in Spain. If such an agreement exists, apply to the health authorities of your country for a document stating that you have free access to the public health care network in Catalonia. Otherwise, you must obtain private medical insurance for your ENTIRE STAY. Universitat de Girona can offer you private insurance as UdG student. You can find out more here: [Mobility Insurance](#).
