Work Placements/Internships for Stamp 2 Holders

If their course has an <u>accredited</u> full time paid work placement/internship module, can a Stamp 2 permission holder participate outside of standardised holiday periods for a Stamp 2?

Work placements/paid Internships are allowed when they are part of the academic programme, are accredited and contribute to the final award, subject to the following rules:

- The work placement/internship component of the course cannot exceed 50% of the duration of the course. E.G. A 4-year course would permit 2 years of work placement. In addition, the employment cannot be in a self-employed capacity.
- Work placements/internships as part of an academic programme must form an integral part of the programme which contributes to the final award.
- Educational facilities must also ensure that the placements are suited to the programme being pursued.
- If their course does <u>not</u> have an accredited paid full time work placement/internship module, can a Stamp 2 permission holder participate outside of standardised holiday periods for a Stamp 2?

Yes, they can still do a work placement/paid internship if it does not impact their attendance and studies, and they are following the working rules of their Stamp 2 permission. On the Stamp 2 student permission a student can work 20 hours per week except during 15 December- 15 January, and 1 June - 30 September when they can work 40 hours.

▼ Can a Stamp 2 permission holder do an unpaid work placement/internship?

Yes, they can do an unpaid work placement/internship, but it cannot impact their attendance or studies as that is the priority.
