

SECOND- AND THIRD-YEAR MODULE PATHWAYS

The chart below indicates possible pathways for your second and third year studies. Two modules (PI2111 and PI2112 are compulsory) but all others are optional. The modules are divided into 6 clusters (Philosophical Foundations; Politics, Democracy and Society; Culture and Experience; Philosophy in Practice; Mind and Knowledge and Post-Kantian European Philosophy). You must register for at the 2 core modules from cluster 1 and we would encourage you to spread your remaining options across all clusters so as to get as comprehensive a study of philosophy as you can. Although the 'Philosophical Foundations' cluster contains two compulsory modules, you may take an additional module from the cluster and are encouraged to avail of the opportunity to study Formal Logic or Ancient Philosophy.
